# ABRAHAM OLADAYO AIJEGBE

**GOVERNANCE RISK AND COMPLIANCE ANALYST**

**Mobile**: +2348036337764 **Email**: abrahamdagr8@gmail.com **LinkedIn**: linkedin.com/in/abrahamaijegbe

**SUMMARY**

Insightful and results-driven GRC Analyst with over 5 years of experience in IT governance, risk management, and compliance. Skilled in conducting security assessments, managing vulnerability and incident response processes, and ensuring adherence to international standards such as ISO 27001 and ITIL. Proficient in leveraging tools such as Qualys, Nessus, and Nmap to identify and remediate security risks while supporting audit readiness and compliance assurance.

**EXPERIENCE**

**GOVERNANCE RISK AND COMPLIANCE ANALYST** **2025 - Present**

**MTN Nigeria**

• Drive IT operational risk closure through stakeholder coordination and timely remediation.
• Ensure timely closure of audit findings through validation, tracking, and compliance assurance.
• Assess IT service management process capabilities using ITIL standards:

- Service Request Management
- Service Desk
- Incident Management
- Problem Management
- Monitoring & Event Management

• Monitor digital certificate lifecycle, ensuring proactive renewal to prevent service disruption or security weaknesses.
• Govern and track service account lifecycle, including expiry monitoring, credential rotation, and usage oversight to mitigate risks of unauthorized or persistent access.
• Provide reporting and metrics on IT risk posture, audit remediation progress, and process maturity levels to management.
• Collaborate with IT and business units to strengthen controls, enhance process efficiency, and align operations with governance frameworks and best practices (e.g., ITIL, ISO 27001).

**CYBERSECURITY GRC ANALYST** **2024 - 2025**

**Sterling Oil Exploration & Energy Production Company Ltd**

• Conduct vulnerability assessments and penetration testing to identify weaknesses.
• Utilize GRC tools and platforms to manage risk registers, control assessments, and compliance tracking.
• Monitor and analyze security alerts, logs, and network activity for potential threats.
• Conduct security awareness training for employees to prevent phishing and social engineering attacks.
• Monitor compliance with cybersecurity policies, standards, procedures, and regulatory requirements (e.g., ISO 27001, NIST, and GDPR).
• Develop and enforce security policies, procedures, and best practices.
• Stay updated on emerging threats, attack techniques, and cybersecurity trends.

**INFORMATION SECURITY ANALYST** **2022 - 2024**

**MTN Nigeria**

• Vulnerability Assessment and Scanning:

- Conduct regular vulnerability scans using tools such as Qualys and Nessus.
- Analyze scan results, identify vulnerabilities, and assess their impact on the organization.
- Maintain and update vulnerability management tools and configurations.

• Carry out Security Assessment on In-flight projects.

- Authentication Scan
- Vulnerability Scan
- Policy Compliance Scan (Security Configuration Assessment)

• Security Incident and Event Management Tools administration and monitoring (SIEM: Arcsight, Accenture MSS, ServiceNow)

• Follow up on security incidents to ensure resolution within the defined Service Level Agreement (SLA).
• Engage for remediation of all Zero-day vulnerabilities in the environment
• Keep abreast of threat intelligence feeds to stay abreast of industry reports and emerging threat that may affect MTNN
• Engage with other IT units to establish and enforce security best practices, protection objectives and process improvements.
• Provide comprehensive PowerPoint report on all Incidents, Vulnerabilities, and Security/Risk Assessment to the line manager 24 hours before management meeting.

**INFORMATION SECURITY ANALYST** **2018 – 2022**
**Electronic Payplus Limited**
• Monitor and analyze system logs, alerts, and network traffic for signs of security breaches or policy violations.
• Manage and enforce access controls for card personalization systems and databases.
• Conduct vulnerability assessments and recommend remediation for identified risks.
• Ensure compliance with PCI-DSS, ISO 27001, CBN guidelines, and internal security policies.
• Collaborate with card personalization and production teams to ensure secure configuration and handling of card data and equipment.
• Participate in internal and external audits, including preparing documentation and responding to findings.
• Conduct security awareness training for staff handling card data.

**ATM CARD SECURITY ANALYST** **2018 – 2018**
**ELECTRONIC PAYPLUS LIMITED - LAGOS, NIGERIA**
Validate produced ATM cards using approved tools.

- Collis tool,
- Magnetic Tester,
- Digital and Analogue Vernier Calipers.

• Investigate anomalies or security incidents related to card data exposure or system intrusion..
• Monitor and secure all systems and environments involved in ATM card personalization, printing, and packaging.
• Ensure strict compliance with **PCI-DSS**, **CBN regulations**, and **card scheme (e.g., Visa, MasterCard and Verve)** security guidelines.
• Support physical and logical security audits of card personalization and production areas.

**TRANSPORT/LOGISTICS OFFICER** **2016 - 2018**
**Bellisson Multi-dimension Limited**
• Assign truck for the delivery of received order of granite, gravel & sand.
• Know the status of all trucks and supervise all maintenance carried out on each truck.
• Ensure all trucks on trip are tracked, taking note of loading time, delivery time and time returned.
• Ensure weekly report of all trips by each driver are sent to the chairperson.
• Ensure smooth operation of all logistics in and out of the company.

**DATA VALIDATION AGENT** **2015 - 2016**
**Communications Network Support Services Limited**
• Provide appropriate solutions and alternatives to customers' queries within the time limit.
• Follow communication procedures, guidelines, and policies.
• Take the extra miles to engage customer
• Vetting 'my customers' SIM to check if the information is completed, and making outbound calls to complete and validate uncompleted ones.

## DEMONSTRATED SUCCESS IN:

- Driving IT operational risk closure through stakeholder coordination and timely remediation.
- Ensuring timely closure of audit findings through validation, tracking, and compliance reporting.
- Assessing IT service management process capabilities using ITIL standards, including:
  - Service Request Management
  - Service Desk
  - Incident Management
  - Problem Management
  - Monitoring & Event Management
- Monitoring the digital certificate lifecycle to ensure proactive renewal and prevent service disruption or security weaknesses.
- Governing and tracking service account lifecycle, including expiry monitoring, credential rotation, and usage oversight to reduce risks of unauthorized.
- Successfully conducted comprehensive **security assessments on over 3,000 servers**, identifying vulnerabilities, ensuring compliance with security baselines, and strengthening overall infrastructure security posture.

## TOOLS & TECHNIQUES

ServiceNow, Jira, Qualys, Nessus, CIS-CAT Lite, OneTrust GRC, Microsoft O365 (Word, Excel, PowerPoint), AD Audit plus, Lansweeper, Forcepoint Proxy, Accenture MSS, Microsoft ATA, Crowdstrike, Microsoft cloud Guard.

## TRAINING & CERTS

• ISO 38500:2024 Foundation • Qualys Certified Specialist • Junior Cybersecurity Analyst - Cisco • Cybersecurity Foundations • GIAC Security Policy and Awareness (GSPA) • Certified in Cybersecurity (CC) ISC2 • GRC Professional (OneTrust) • Privacy Professional Certification (OneTrust)

---

## SKILLS

• Microsoft office • Time management • Service delivery • Risk management • Qualys • Vulnerability Assessment • Information Security • Event Management • Security Incident Response and Resolution.

## Education

**2026 -** Bachelor of Science (BSc) Cybersecurity
MIVA open University (In-view)

**2013** - Higher National Diploma in Mechanical Engineering Technology
Kwara State Polytechnic, Ilorin.

**2010** - National Diploma ND in Mechanical Engineering Technology
Kwara State Polytechnic, Ilorin.
